MEDALS FOR THE LATE TURKISH CONTINGENT.

MEMORANDUM.

War Office, 10*th October*,

THE Turkish Medals due to those persons who served in the late Turkish Contingent during the Russian War, whose names have been included in a list furnished to this Department by the General Officer who commanded that have been received in this country, and are ready for distribution.

Applications for these Medals must be made to this Department by letter, addressed to the "Under Secretary of State for War, War Office, London, S.W.," with the words "Application for Turkish Medal" in the corner of the cover. Those persons below the grade of Officer who received certificates of discharge at the time should forward their certificates with their applications. Those who are now serving in the Army must forward their applications through their present Commanding Officer, accompanied by a statement of their service in the force in each case. The Medals of deceased persons will be forwarded to the legal representative in each case, on proper proof of identity being furnished.

It must be distinctly understood that, in order to obviate a double issue, no application can be entertained from those persons who served in the Turkish Contingent and have already received or are entitled to the Turkish Crimean Medal for service in the British Army before Sebastopol.

Ammunition, 1 (1862). *Horse Guards, S. W., 5th October*, 1862.

Referring to paragraph 21, page 116 of the Queen's Regulations and Orders for the Army, which forbids the use of service ammunition for practice, and *vice versâ*, His Royal Highness the General Commanding in Chief, in concurrence with the Secretary of State for War, is now pleased to direct, that the service ammunition in the men's pouches shall, in future, be expended annually in practice, and be replaced from time to time by a similar quantity of the ammunition supplied for the annual practice of the corps.

By this arrangement the service ammunition, being exchanged every year, will always be maintained in good order, even in damp climates, where powder is apt to deteriorate.

This measure is accordingly to be carried out on receipt of the next annual issues of practice ammunition, and any objection which may be made, in the first instance, on the score of the exchange affecting the shooting in cases where the service ammunition has been an unusually long time in possession, may be met by Commanding Officers with an order to use it in file and volley firing, or at short ranges, where a little diminution in the strength of the powder is not of so much consequence.

GENERAL ORDER, No. 811.

Schools—3 (1862). *Horse Guards, S. W., 2nd October*, 1862.

ARRANGEMENTS having been made to provide a regular supply of diagrams and magic lantern slides, to illustrate the lectures which may be given, during the ensuing winter, to the troops at the several stations in the United Kingdom, named in the annexed list marked A, the General Commanding in Chief desires attention to the following rules, which have been drawn up for regulating this service,—and looks for the co-operation of Commanding Officers towards carrying out the same, and ensuring the circulation of the slides and diagrams with that regularity upon which the success of the measure will mainly depend.

General Officers commanding at the several foreign stations specified in the list B will be pleased to give effect to these regulations within their respective commands, as far as local circumstances will permit, reporting from time to time their arrangements to this Department for the General Commanding in Chief's information, and with a view to the same being communicated to the Council of Military Education.

1. The boxes and diagrams are now at the stations specified in the annexed list A, and should be placed in charge of the senior schoolmaster at the station, or some other schoolmaster detailed to that duty by the Officer commanding.

DIRECTIONS for Using the Phantasmagoria Lantern, &c.

To prepare a single lantern for exhibition, the lamp must be furnished with a cotton ick, and trimmed in the usual manner. In order to supply the lamp with oil, the ervoir must be removed from the cistern, and a small quantity of oil poured into e latter, so as just to fill the hole at the bottom, and well saturate the cotton wick. e moveable reservoir should then be inverted and filled with the *best sperm oil*, and placed in the cistern. If one ounce of powdered camphor is put into a pint of oil, nd dissolved by a gentle heat, it will add greatly to its brilliancy. The lamp may hen be lighted, and the wick turned up until an intensely bright light without any moke is obtained. *Before using the lantern, the lenses should be taken out and wiped, so as to remove any dust or moisture that might be on them; the lamp-glass must also be cleaned previous to placing it on the lamp, and care should be taken that the silver reflector is brightly polished.*

GENERAL ORDER, No. 811—*continued.*

The screen or medium upon which the picture is to be shown may consist either of a large linen sheet or a white wall, if the picture is to be shown *on* the screen; or a fine semi-transparent muslin medium suitably prepared for the purpose may be employed; in which case the picture is to be shown *through* the screen.

The former is the most usual plan, but the latter possesses many advantages, and is therefore preferable. When the thick calico medium is employed, the screen must be wetted with water, and kept in that state during the exhibition: it should be suspended from a beam or frame placed at a convenient distance from the wall, the exhibitor being on one side of the screen, and the spectators on the other. The lantern having been placed at a suitable distance from the screen, say, from eight to twelve feet, according to the size of the lenses, should it not throw a clear and bright disc of light on to the screen or medium, the defect may be corrected by moving the lamp a little back or forward, that is a little nearer to or farther from the lenses. A clear and well-defined disc can by this means be obtained with facility by the most inexperienced person after a few trials, and when this has been satisfactorily effected, a slide or picture may be put into the groove and "focussed" by carefully moving in or out the brass "nose" or tube in front, until the picture is perfectly clear and distinct. This operation is considerably facilitated by the employment of a rack and pinion motion, whereby the position of the lenses may be instantly adjusted with great nicety.

A microscope may be attached to these lanterns for the purpose of showing natural objects as with the gas microscope, but of course with an inferior light. Wings, sections of wood, ferns, parts of insects, &c., may be shown from three to six feet in diameter. Water insects, larvæ, &c., may be exhibited alive when placed in the water-box supplied with the microscope.

When the oxycalcium light is employed, the microscope is a very beautiful and efficient instrument: when used, the front of the lantern carrying the small lenses is to be removed, and the microscope front fitted in its place. It will be found necessary to draw the lamp back to get a clear disc of light, and when the highest power is used further back still. The slides are inserted and focussed in the same manner as the lantern slides.

Dissolving views are exhibited by means of two lanterns, each of which must be prepared in the manner already explained. The two lanterns are then placed side by side on the top of the box, and are secured in their proper places by clamp-screws, so as to prevent them from shifting forward or backward. Clear and well-defined discs of light having been obtained from each lantern, the rack-work dissolving apparatus must be attached to the front of the box, and the dissolving fans fixed on to the ends of the rack bar, in such a manner that one of the fans may obscure or obstruct the light from one lantern, while the other fan allows the light from the other lantern to fall on to the screen. *It is necessary to make the discs from both lanterns coincide perfectly on the screen, otherwise the illusion would be incomplete.* Should the edge of one disc show beyond the edge of the other, it may be corrected by moving one of the lanterns slightly sideways, thereby causing it to turn on the clamp screws, until both discs are perfectly coincident. The lenses having been "focussed" in the way already explained, the apparatus will be ready for use. Pictures may then be introduced into the slide grooves of both lanterns; but one only of the pictures will be seen on the screen, the other of course being invisible, as it will be hidden by the fan that stands in front of the aperture. When the first picture has been exposed to view long enough, the exhibitor, from behind the lanterns, must begin to turn the winch of dissolving apparatus slowly, so as to obscure or cut off the light from the first picture and bring forward the second. By thus throwing some of the light from the second lantern on to the first picture, the latter gradually becomes dim or indistinct, and dissolves away slowly; and by continuing the operation, the second picture, by gradual and imperceptible degrees, assumes the place of the first, and comes out on the screen in a clear and distinct manner.

While the spectators are examining the second picture, the first may be removed, and another slide introduced in its place, and the dissolving operation repeated, and so on until all the views have been shown. Many beautiful effects may be exhibited, such as falling snow in winter scenes, rainbows, lightning and other atmospheric phenomena. For these purposes both lanterns must be used together; one to show the view and the other the effects.

The improved oxygen light is produced by a jet of oxygen gas passing through the flame of a spirit lamp, and impinging against a cylinder of lime. The lamp used is one of the ordinary construction, but with a longer pipe, at the end of which is the burner, holding a small tuft of cotton, which will seldom require renewing as the flame does not consume it; about an inch from the burner is an upright pin on which the lime

der is placed, the jet through which the oxygen passes being exactly opposite to the gas is supplied from a wedge-shaped India-rubber bag, placed between ire boards, on which is placed a weight of about 30lbs.; the flexible tube whereby as-bag is connected with the lantern is provided with a stop-cock for regulating ting off the supply of gas. The lamp, after being supplied with spirits, is to be t in the lantern and lighted; then attach the flexible gas tube, and gradually turn gas. If the jet of flame does not impinge exactly on the centre of the lime, it adily be made to do so by turning up the cotton wick with a piece of wire; an ly brilliant and dazzling light, scarcely inferior to the well-known oxyhydrogen will then be produced at one half the expense, and *without the slightest danger.*

oxygen gas is made from a mixture of chlorate of potass and the black oxide of nese, in the proportion of two parts of the former to one part of the latter. A erable quantity of these ingredients well pulverized may be kept ready mixed, out 2lbs. of the mixture will be sufficient to make enough gas to fill the bag, exhibit the dissolving views for two hours or more, according to the economy which the gas is used. The requisite quantity of the ingredients to make the gas e placed in the retort, and the connection between that and the purifier having ade, the retort may be placed on any common fire; after a short time the gas egin to come over, and bubble up in the purifier, which must previously be half with water. The first bubbles which come over will consist principally of on air; these must be allowed to pass off, but the presence of pure oxygen will ily ascertained by holding a piece of partly-ignited paper to the exit aperture of rifier, as the pure gas will, if a spark exists on the paper, immediately cause it st into flame. The flexible tube should then be attached to the exit aperture of rifier, and the gas allowed to pass into the bag. When the gas leaves off ing in the purifier, it will at once be known that the ingredients are exhausted; tort should then be taken off the fire, and when cool, all the residuum must be ed therefrom, by washing it with cold water, care being taken that the retort *is dried* before the next operation.

THE VICTORIA CROSS

CONTINUED FROM

"*The Monthly Army Lists*" of March, June, July, October and December, 1857, January, February, May, July, September, October and November, 1858, January, February, May, June, July, August, October, November and December, 1859, February, March, June, July, September, October and December, 1860, March, April, August and September, 1861, and March, June and July, 1862.

War Office, 11th November, 1862.

THE QUEEN has been graciously pleased to signify her intention to confer the Decoration of "The Victoria Cross" on the under-mentioned Non-commissioned Officers of the Army, whose claims to the same have been submitted for Her Majesty's approval, on account of Acts of Bravery performed by them in India, as recorded against their names, viz. :—

75th Regiment.—Colour Serjeant CORNELIUS COGHLAN.—Dates of Acts of Bravery, June 8th and July 18th, 1857.—For gallantly venturing, under a heavy fire, with three others, into a Serai occupied by the enemy in great numbers, and removing Private Corbett, 75th Regiment, who lay severely wounded. Also for cheering and encouraging a party which hesitated to charge down a lane in Subzee Mundee, at Delhi, lined on each side with huts, and raked by a cross fire, then entering with the said party into an enclosure filled with the enemy, and destroying every man. For having also, on the same occasion, returned under a cross fire to collect dhoolies, and carry off the wounded; a service which was successfully performed, and for which this man obtained great praise from the Officers of his Regiment.

2nd Dragoon Guards.—No. 875. Corporal (then Private) CHARLES ANDERSON. No. 1158, Trumpeter THOMAS MONAGHAN.—Date of Acts of Bravery, October 8th, 1858.—For saving the life of Lieutenant Colonel Seymour, C.B., commanding the Regiment, in an attack made on him on the 8th of October, 1858, by mutinous sepoys, in a dense jungle of sugar-canes, from which an attempt was made to dislodge them. The mutineers were between thirty and forty in number. They suddenly opened fire on Lieutenant Colonel Seymour and his party at a few yards distance, and immediately afterwards rushed in upon them with drawn (native) swords. Pistolling a man, cutting at him, and emptying with deadly effect at arm's length every barrel of his revolver, Lieutenant Colonel Seymour was cut down by two sword cuts, when the two men above recommended rushed to his rescue, and the Trumpeter shooting a man with his pistol in the act of cutting at him, and both Trumpeter and Dragoon driving at the enemy with their swords, enabled him to arise and assist in defending himself again, when the whole of the enemy were dispatched. The occurrence took place soon after the action fought near Sundeela, Oudh, on the date above mentioned.

The Queen has been pleased to direct that the following Regulations respecting Foreign Orders and Medals shall be substituted for those now in force:

Regulations respecting Foreign Orders.

1. No Subject of Her Majesty shall accept a Foreign Order from the Sovereign of any foreign country, or wear the Insignia thereof, without having previously obtained Her Majesty's permission to that effect, signified by a Warrant under Her Royal Sign Manual.

2. Such permission shall not be granted to any Subject of Her Majesty, unless the Foreign Order shall have been conferred in consequence of active and distinguished Service before the Enemy, either at Sea or in the Field; or unless he shall have been actually and entirely employed, beyond Her Majesty's Dominions, in the Service of the Foreign Sovereign by whom the Order is conferred.

3. The intention of a Foreign Sovereign to confer upon a British Subject the Insignia of an Order, must be notified to Her Majesty's Principal Secretary of State for Foreign Affairs, either through the British Minister accredited at the Court of such Foreign Sovereign, or through His Minister accredited at the Court of Her Majesty.

4. If the service for which it is proposed to confer the Order has been performed during War, the Notification required by the preceding Clause must be made not later than two years after the exchange of the Ratifications of a Treaty of Peace.

If the service has been performed in time of Peace, the Notification must be made within two years after the date of such service.

5. After such Notification shall have been received, Her Majesty's Principal Secretary of State for Foreign Affairs shall, if the case comes within the conditions prescribed by the present Regulations, and arises from naval or military Services before the Enemy, refer it to Her Majesty's Principal Secretary of State for the War Department, previously to taking Her Majesty's pleasure thereupon, in order to ascertain whether there be any objection to Her Majesty's permission being granted.

A similar reference shall also be made to the Commander-in-Chief, if the application relates to an Officer in the Army, or to the Lords of the Admiralty, if it relates to an Officer in the Navy.

6. When Her Majesty's Principal Secretary of State for Foreign Affairs shall have taken the Queen's pleasure on any such application, and shall have obtained Her Majesty's permission for the person in whose favour it has been made to accept the Foreign Order, and wear the Insignia thereof, he shall signify the same to Her Majesty's Principal Secretary of State for the Home Department, in order that he may cause the Warrant required by Clause 1 to be prepared for the Royal Sign Manual.

When such Warrant shall have been signed by the Queen, a Notification thereof shall be inserted in the Gazette, stating the service for which the Foreign Order has been conferred.

7. The Warrant signifying Her Majesty's permission may, at the request and at the expense of the person who has obtained it, be registered in the College of Arms.

8. Every such Warrant as aforesaid shall contain a Clause providing that Her Majesty's licence and permission does not authorize the assumption of any style, appellation, rank, precedence or privilege appertaining to a Knight Bachelor of Her Majesty's Realms.

9. When a British Subject has received the Royal permission to accept a Foreign Order, he will at any future time be allowed to accept the Decoration of a higher Class of the same Order, to which he may have become eligible by increase of rank in the Foreign Service, or in the Service of his own country; or any other distinctive mark of honour strictly consequent upon the acceptance of the original Order, and common to every person upon whom such Order is conferred.

10. The preceding Clause shall not be taken to apply to Decorations of the Guelphic Order which were bestowed on British Subjects by Her Majesty's predecessors, King George IV. and King William IV., on whose heads the Crowns of Great Britain and of Hanover were united.

Decorations so bestowed cannot properly be considered as rewards granted by a Foreign Sovereign for services rendered according to the purport of Clause 2 of these Regulations. They must be rather considered as personal favours bestowed on British Subjects by British Sovereigns, and as having no reference to services rendered to the Foreign Crown of Hanover.

Regulations respecting Foreign Medals.

1. Application for permission to accept and wear Medals which, not being the decoration of any Foreign Order, are conferred by a Foreign Sovereign on British Subjects in the Army or in the Navy for military or for naval services, should be addressed, as the case may be, to the Commander-in-Chief, the Master-General of the Ordnance, or the Lords of the Admiralty, who, if they see fit, may submit the same to Her Majesty's Principal Secretary of State for Foreign Affairs for Her Majesty's sanction; upon obtaining which, they may grant such permission without any other formality.

2. Permission to wear a Foreign Medal cannot be granted to a British Subject, unless such Medal is bestowed for military or naval services performed by the command or with the sanction of Her Majesty But no permission is necessary for accepting a Foreign Medal, if such Medal is not to be worn.

Foreign Office, May 10, 1855. (Signed) CLARENDON.

Barrack Masters will therefore demand such quantity of paper as may be necessary to be kept in store, and will make issues of the same weekly to the Quartermasters upon requisitions from the Officers commanding Regiments, the supply to be regulated by the occupation, and not to exceed the proportion above stated.

Barrack Masters will transmit to this office a monthly return, showing the occupation and the quantity (in reams and sheets) of paper issued.

CIRCULAR MEMORANDUM. Gen. No. 228.

Addressed to General Officers in command and Officers commanding Regiments and Depôts of Infantry, except Rifle and Light Infantry.

Drums, &c. 1 (1862). *Horse Guards, S. W., 29th October*, 1862.

THE General Commanding in Chief, having reason to believe that the frequent complaints which reach His Royal Highness of the new Cheese Drums recently introduced into the service, arise principally from the very imperfect knowledge the Drummers possess of the mechanism of the instruments, and are not attributable to the quality of the materials of which they are composed, or to any fault in their construction, has been pleased to order that the accompanying "Instructions for the guidance of Drum Majors in the management and preservation of brass side drums" be promulgated for general information and guidance, and carefully attended to for the future.

By Command. JAMES YORKE SCARLETT, *Adj. Gen.*

INSTRUCTIONS for the guidance of Drum Majors in the management and preservation of Brass Side Drums.

1. When the drums are taken to pieces (which should be done once a week), the screws and nuts should be properly cleaned, and any sand or grit which may have accumulated should be entirely removed. In dusty weather, this should be done at least *twice a week*.

2. The nuts inside the drums, which secure the snare studs, should be examined, and if found to be loose, or the outer shoulder of the stud not close to the shell, the nut should at once be screwed tight, to prevent any undue strain upon the stud which passes through the shell.

3. In tightening the cords, great care should be taken that the outer edges of the hoops are exactly parallel, and no screws should have more than three turns given to it at a time, and gradually lessened as the drum is brought to its proper pitch.

4. The screws, which pass through the pulley brackets and which act as an axle to the pulley, should be examined before the cords are tightened, to see that the point of the screw is even with the brass plate inside; and if it is found to have started, it should at once be screwed home. If the thread in the brass plate inside the hoop is stripped, the screw should be taken out, the plate slightly counter sunk, and the end of the screw clenched or riveted to the plate. The pulleys should also have their bearings occasionally oiled, that they may work quite freely.

5. When it is found that the cords have stretched until the screws project beyond the top of the nut, the cord should be shortened, as the screws are not only exposed to injury, but are liable to come in contact with the sticks.

6. Strict attention should be paid to the steel screws, to see that they are not bent by the drum falling, or from other causes, as the nut will not then work freely, and there will be some difficulty in bringing the cords up to their proper tension.

CIRCULAR MEMORANDUM. Gen. No. 229.

Addressed to the Army at Home and Abroad.

Instruction of Musketry 5 (1862). *Horse Guards, S. W., 30th October*, 1862.

IT has been brought to the notice of the General Commanding in Chief that the file-firing and skirmishing practices, as prescribed by the Musketry Regulations, are not always executed agreeably to the instructions contained in the book of Field Exercises of the Army, notwithstanding the stringent certificate which the company officers superintending the said practices are required to sign.

It appears that, in *file-firing*, the men are allowed to occupy more space in the ranks than they would do if at company drill,—and to fire slowly, as in individual firing,—thereby defeating the object sought, viz., to test the efficiency of rapid fire, by files, in the ranks in line:—

And, in *skirmishing*, that the men are permitted to expend the greater portion of their ammunition in practice between 200 and 300 yards, instead of firing, advancing and retiring, between 200 and 400 yards, as directed.

In order to check the irregular proceedings above alluded to, His Royal Highness desires that, henceforth, the platoon and skirmishing practices be invariably executed under the personal superintendence of a Field Officer, who is to furnish a certificate (to be appended to the Annual Musketry Returns) that the said practices took place in his presence, and were conducted in strict accordance with all orders and regulations on the subject.

GENERAL ORDER. No. 816.

Staff College 4 (1862). *Horse Guards, S. W., 15th November*, 1862.

WITH reference to paragraph 5 of the Staff College Regulations, published with the General Order, No. 808, dated 6th March, 1862, Officers of the Army are hereby informed that the Examination, in July, 1863, of Candidates for admission to the Staff College will comprise the following portions of Military History and Geography, viz. :—

MILITARY HISTORY.	MILITARY GEOGRAPHY.
Campaign of Napoleon, 1809.....	Basin of the Danube.
Campaign of Wellington, 1811	Portuguese Frontier.
Campaign of Wellington, 1815.....	Theatre of operations on the Frontier of France, and in Belgium.—Principal routes from Paris to Brussels.

The number of Campaigns required to be taken up has been considerably diminished, in order to enable Candidates better to acquaint themselves with, and to be prepared to reason upon, the circumstances by which the issue of the Campaigns was mainly influenced; for which purpose the Candidates should compare for themselves, to the fullest extent possible, the accounts of both sides.

The examination will be principally directed to elicit this knowledge, rather than a mere narrative of facts.

JAMES YORKE SCARLETT, *Adj. Gen.*

VOLUNTEER CIRCULAR, No. 32.

Gen. No. 2,079. *War Office, 30th October*, 1862.

SIR,—I am directed by the Secretary of State for War to inform you that his attention has recently been directed to the means which are at the disposal of a Commanding Officer of a Volunteer Corps for enforcing the payment of subscriptions, &c., in arrear from the members of the Corps under his command, under the provisions of the 50th and 51st sections of the act 44 George 3, cap. 54.

The 51st section leaves it *at the discretion of the Justice of the Peace*, on the application of the Commanding Officer, to direct double the amount of such subscriptions, &c., to be paid as penalty or forfeiture, and, in default, to cause the same to be levied by distress. The jurisdiction of the Justice is, moreover, limited by the 11th section of the 11th & 12th Victoria, cap. 43, to within six months after the subject-matter of the complaint arose.

By the 50th section, all money subscribed by, or for the use "of, any Corps" is "declared to be vested in the Commanding Officer," and shall "be deemed and taken to be the property of such Commanding Officer," and "may be sued for and recovered as such . . . in any action or suit relating thereto."

The Secretary of State for War upon these points is advised :—

1st. That Commanding Officers may sue at law, or in the County Court, for money subscribed and due from Volunteers, under section 50 of 44 George 3, cap. 54. Such money by the terms of the section is "vested in the Commanding Officer," and may be "sued for and recovered as such," that is, as money payable to the Commanding Officer, "in any action or suit relating thereto." It is thus clear also that "money subscribed" does not mean only money actually paid as a subscription, but extends also to unpaid subscriptions.

2nd. That the limitation of time prescribed by the 11th & 12th Victoria, cap. 43, runs not from the time when the subscription becomes due, but from the time when the Volunteer neglects or refuses, *on demand made*, to pay it; and therefore justices may enforce payment of subscriptions more than six months after they grow legally due.

I am, therefore, to suggest that Commanding Officers of Volunteers should not allow six months to elapse after they have demanded payment, without adopting the summary proceeding under the 11th & 12th Victoria, cap. 43.

I have the honor to be, Sir, your obedient Servant,

To Commanding Officers of Volunteers. DE GREY AND RIPON.

V. VOLUNTEER CIRCULAR, No. 30.

Gen. No. 2,010. *War Office, 18th October, 1862.*

SIR,—I am directed by Secretary Sir George Lewis to inform you, that, with a view to facilitate the repairs of Arms in possession of Volunteer Corps, it has been decided to extend the arrangement made by Volunteer Circular No. 2 of the 8th June, 1861, to Volunteer Corps generally.

Under these circumstances, you will for the future be at liberty to send any arms requiring repairs in possession of the Corps under your command to the Government Small Arms Establishment at Pimlico, on the conditions hereinafter specified.

1st. Arms belonging to a Volunteer Corps are not to be sent to the Government Establishment, except by authority of the Commanding Officer.

2nd. The cost of sending the arms to and from the Establishment at Pimlico will be borne by the Corps.

3rd. A Statement, similar to the one annexed (Form A), and giving the information shown therein, should be made out on foolscap, and sent to Pimlico at the time of the transmission of the arms.

4th. Commanding Officers should, as far as possible, have stated times, say, monthly or quarterly, for sending in arms requiring repair, avoiding too frequent transmissions, as tending to unexpectedly increase the work thrown on the Establishment.

5th. The repairs of all arms forwarded by the different Corps to the above Station will be executed in a similar manner, and to the same extent, as laid down in the Queen's Regulations for the repairs of arms in possession of the Regular Army. When an Arm is forwarded for the repair of a particular part, only that specified repair will be performed, and the Arm will, in all other respects, be returned to the Corps in the same condition as when received for repair.

6th. The prices to be charged for repairs will be in accordance, as far as practicable, with those laid down in the accompanying lists extracted from the Queen's Regulations, with the latest alterations and additions having reference particularly to the repair of Volunteer Arms.

These prices will also govern the charges to be made for repairing Arms of any description not enumerated in the lists.

7th. When arms, which have not been subject to previous inspection, are sent in for slight repairs it is not proposed to remedy any of the original and inherent defects which may be found in them, but merely to execute such repairs and render the arms in a general sense serviceable. At the same time, should the Corps, or individual members of the same, be desirous of incurring greater expense, involved in doing more work to an arm than has been explained in the preceding paragraphs, the Repairing Establishment will be prepared, as far as its means will allow of it, to meet such demands.

8th. If it be desired that the bores of the barrels should be examined by the standard plug, in addition to the repairs, this request can be complied with, and a report furnished of the result for each arm so tested; but Commanding Officers are recommended to trust more to the result of careful practice at a Target, as affording a better indication of the value of an arm than a mere inspection by plugging.

9th. When the repairs of the arms are completed, a statement to that effect will be sent to the Commanding Officer, detailing also the charge for the repair of each arm, and charges for carriage when such have not been already defrayed by the Corps. The amount thus charged should be remitted per cheque, or Post Office Order, to the Assistant Superintendent, Small Arms Office, Pimlico, and upon the receipt of this the arms will be returned.

The arms of Volunteer Corps will be re-browned and the bands blued, every two years, at the public expense, if on inspection they are found to require it. This service will be executed at the Royal Small Arms View Rooms in Birmingham, and at the Royal Small Arms Repairing Factory at Pimlico in London. Volunteer Corps of the counties of Gloucester, Oxford, Bucks, Bedford, Huntingdon, Cambridge, Norfolk, and of all counties south of these, will be considered as belonging to the London District, and all others to the Birmingham District.

This subdivision has reference merely to browning the arms periodically, and does not alter in any way the provisions of this Circular for the repair of Volunteer Arms, as no arms will be repaired at the View Rooms at Birmingham.

The arms of each Corps requiring to be re-browned must be sent to the Small Arms Establishment *in bulk*, after the Inspecting Officer has certified to the number that are in a condition to require this service; but, before forwarding the arms, the Commanding Officer must communicate with the Assistant Superintendent of Small Arms, in London or Birmingham, who will notify to the Corps when it will be convenient to receive them. A certificate from the Inspecting Officer of a Volunteer Corps, or other

Officer appointed by the Secretary of State for War, to the effect that the arms have been in use the proper period since they were last browned, and that they actually require to be re-browned, must accompany the Commanding Officer's communication to the Assistant Superintendent.

I have the honor to be, Sir, your obedient Servant,

V. VOLUNTEER CIRCULAR, No. 34.

Gen. No. 2,101. *War Office*, 14*th November*, 1862.

SIR,—The attention of the Secretary of State for War has been drawn to certain fatal or serious accidents which have lately occurred at Rifle Ranges belonging to Volunteer Corps, and he regrets to learn from the Reports which he has received, that in several cases those accidents arose from neglect of the precautions prescribed by the Regulations for the instruction and practice of Musketry by the Officers and Non-Commissioned Officers whose duty it was to enforce them.

Sir George Lewis, therefore, requests that you will impress upon the Adjutant and Serjeant Instructors under your command the necessity of observing strict regularity and discipline when in charge of firing parties; and that you will point out to them that they will be in future held seriously responsible for any deviation from the regulations of the service in which they may be concerned.

I am also to inform you that while Sir George Lewis desires that every facility should be afforded to persons of all classes to acquire a knowledge of the use of the Rifle, he is of opinion that the safety of the public requires that indiscriminate private practice at Volunteer Rifle Ranges should not be permitted, and he therefore requests that you will take steps to regulate the practice at the Ranges under your control, so as to ensure the presence of an Officer or Non-Commissioned Officer on all occasions when firing is going on.

I am further to observe that the practice of employing Boys as Markers at Butts is highly dangerous and improper, and to request that you will take care that none but Non-Commissioned Officers, or experienced Volunteers, act in that capacity at the Ranges belonging to the Corps under your command.

I have the honor to be, Sir, your obedient Servant,

To Commanding Officers of Volunteers. DE GREY AND RIPON.
